

“Philippines Roll Out”

From Left to Right:

1. JP
2. Eric
3. Lily
4. Rob
5. Ray
6. Roger
7. Michael

From the 26th to 30th July, it was the beginning of our Asia Tour. First stop **Philippines!**

It was a five (5) day event, with Michael Abad from Le Firenze Marketing & Management Corp (LeFirMM) - Termguard's Philippines Distributor, as our escort.

Incorporated in our Manila Roll Out, included the product launch, training sessions, visiting suppliers and onsite inspections.

The first major event was the Termguard product launch on Wednesday, 27th July.

Held at the Makati Shangri-La, pest controllers, architects, builders and media were invited to the afternoon event.

Over 70 attendees were at the launch for the introduction of Termguard in the Philippines market, with a display model of the ultimate system present for the attendees to understand how our system works.

On the 28th July, Roger and Eric performed classroom training with the local PCO's and Le-Firenze; with Eric returning to the Philippines on the 23rd August to undergo on-field training.

We would like to personally thank Michael Abad and LeFirMM for your hospitality and sharing the tastes and culture of Manila. We hope with the completion of the training program, Termguard will be as successful in Manila as it is in our other Asian countries.

Next stop Singapore!

Roll Out!
